

MOSAIC Technologies Group Class Registration Form

Class Information Section

Class: Foundations of Capability and Building Service Excellence Courses **Dates:** Oct 4-5 & 7, 2021
Location: Microsoft Teams **Cost:** \$1,600

Description: These are the CMMI Institute’s official CMMI V2.0 courses and are taught by our CMMI Institute-certified instructor. These two courses are taught together as the Foundations course is a prerequisite for the Building Service Excellence course. The two-day Foundations course (Oct 4-5) provides a high-level overview of the CMMI V2.0 and gives attendees good information on how to use the model for performance improvement. The one-day Building Service Excellence course (Oct 7) provides a deeper application of the CMMI to typical services organizations, giving attendees the opportunity to see how to apply CMMI practices to their organization. After attending the course, participants will understand how the CMMI is structured, how to access the model through the viewer, and how to interpret the model appropriately.

These are certificate courses and give 24 Professional Development Units towards PMP certification.

Attendance Requirements: Since this is a CMMI Institute certificate course, participants must be present for the entire course in order to get a certificate and be registered with the CMMI Institute. Students will have access to the new CMMI Model Viewer for 30 days as part of this training.

Registrant Information Section

Name: _____ **Email:** _____
Company Name: _____ **Phone:** _____
Address: _____ **Fax:** _____

For courses offering certificates, indicate how you would like your name to appear on the certificate: _____

Payment Information Section

Pay by invoice to my company. Pay by check. Check # _____
